

The online article is the official version and may contain additional content not available in this print issue. To access the full article, including multimedia, enhanced figures, auxiliary materials, and other nonprinted content, go to <http://www.agu.org/journals/gl>.

i Highlights of This Issue

Frontier Articles

- L18101 *D. J. McComas, H. O. Funsten, S. A. Fuselier, W. S. Lewis, E. Möbius, and N. A. Schwadron*
IBEX observations of heliospheric energetic neutral atoms: Current understanding and future directions
(doi 10.1029/2011GL048763)
- L18601 *John A. Church, Neil J. White, Leonard F. Konikow, Catia M. Domingues, J. Graham Cogley, Eric Rignot, Jonathan M. Gregory, Michiel R. van den Broeke, Andrew J. Monaghan, and Isabella Velicogna*
Revisiting the Earth's sea-level and energy budgets from 1961 to 2008 (doi 10.1029/2011GL048794)

Space Sciences

- L18104 *Tim Fuller-Rowell, Rashid Akmaev, Fei Wu, Mariangel Fedrizzi, Rodney A. Viereck, and Houjun Wang*
Did the January 2009 sudden stratospheric warming cool or warm the thermosphere?
(doi 10.1029/2011GL048985)
- L18102 *T. T. Tsuda, S. Nozawa, T. D. Kawahara, T. Kawabata, N. Saito, S. Wada, C. M. Hall, S. Oyama, Y. Ogawa, S. Suzuki, T. Ogawa, T. Takahashi, H. Fujiwara, R. Fujii, N. Matuura, and A. Brekke*
Fine structure of sporadic sodium layer observed with a sodium lidar at Tromsø, Norway
(doi 10.1029/2011GL048685)
- L18103 *R. D. DiFabio, D. C. Hamilton, S. M. Krimigis, and D. G. Mitchell*
Long term time variations of the suprathermal ions in Saturn's magnetosphere (doi 10.1029/2011GL048841)
- L18105 *M. A. Balikhin, R. J. Boynton, S. N. Walker, J. E. Borovsky, S. A. Billings, and H. L. Wei*
Using the NARMAX approach to model the evolution of energetic electrons fluxes at geostationary orbit
(doi 10.1029/2011GL048980)
- L18106 *C.-C. Hung, L.-N. Hau, and M. Hoshino*
Magnetic reconnection in an anisotropic plasma: Observation and theory (doi 10.1029/2011GL049117)
- L18107 *N. Haque, U. S. Inan, T. F. Bell, J. S. Pickett, J. G. Trotignon, and G. Facskó*
Cluster observations of whistler mode ducts and banded chorus (doi 10.1029/2011GL049112)

Planets

- L18201 *D. Alex Patthoff and Simon A. Kattenhorn*
A fracture history on Enceladus provides evidence for a global ocean (doi 10.1029/2011GL048387)

Solid Earth

- L18308 *Ronni Grapenthin and Jeffrey T. Freymueller*
The dynamics of a seismic wave field: Animation and analysis of kinematic GPS data recorded during the 2011 Tohoku-oki earthquake, Japan (doi 10.1029/2011GL048405)
- L18301 *T. Rolf and P. J. Tackley*
Focussing of stress by continents in 3D spherical mantle convection with self-consistent plate tectonics
(doi 10.1029/2011GL048677)
- L18302 *A. Ciaramella, E. De Lauro, M. Falanga, and S. Petrosino*
Automatic detection of long-period events at Campi Flegrei Caldera (Italy) (doi 10.1029/2011GL049065)
- L18303 *D. R. Faulkner, T. M. Mitchell, J. Behnsen, T. Hirose, and T. Shimamoto*
Stuck in the mud? Earthquake nucleation and propagation through accretionary forearcs
(doi 10.1029/2011GL048552)

- L18304** *Harald Milsch, Mike Priegnitz, and Guido Blöcher*
Permeability of gypsum samples dehydrated in air (doi 10.1029/2011GL048797)
- L18305** *A. Purcell, A. Dehecq, P. Tregoning, E.-K. Potter, S. C. McClusky, and K. Lambeck*
Relationship between glacial isostatic adjustment and gravity perturbations observed by GRACE
(doi 10.1029/2011GL048624)
- L18306** *Christine McCarthy and Yasuko Takei*
Anelasticity and viscosity of partially molten rock analogue: Toward seismic detection of small quantities of melt (doi 10.1029/2011GL048776)
- L18309** *Noel M. Bartlow, Shin'ichi Miyazaki, Andrew M. Bradley, and Paul Segall*
Space-time correlation of slip and tremor during the 2009 Cascadia slow slip event
(doi 10.1029/2011GL048714)
- L18310** *Franck Donnadieu, Sébastien Valade, and Séverine Moune*
Three dimensional transport speed of wind-drifted ash plumes using ground-based radar
(doi 10.1029/2011GL049001)

Corrections

- L18307** *Matthew Blackett, Martin J. Wooster, and Bruce D. Malamud*
Correction to "Exploring land surface temperature earthquake precursors: A focus on the Gujarat (India) earthquake of 2001" (doi 10.1029/2011GL049428)

Hydrology and Land Surface Studies

- L18401** *Jussi Huotari, Anne Ojala, Elina Peltomaa, Annika Nordbo, Samuli Launiainen, Jukka Pumpanen, Terhi Rasilo, Pertti Hari, and Timo Vesala*
Long-term direct CO₂ flux measurements over a boreal lake: Five years of eddy covariance data
(doi 10.1029/2011GL048753)
- L18402** *Yi Y. Liu, Richard A. M. de Jeu, Matthew F. McCabe, Jason P. Evans, and Albert I. J. M. van Dijk*
Global long-term passive microwave satellite-based retrievals of vegetation optical depth
(doi 10.1029/2011GL048684)
- L18403** *M. Schleiss, J. Jaffrain, and A. Berne*
Statistical analysis of rainfall intermittency at small spatial and temporal scales (doi 10.1029/2011GL049000)
- L18404** *S. Tamea, F. Laio, L. Ridolfi, and I. Rodriguez-Iturbe*
Crossing properties for geophysical systems forced by Poisson noise (doi 10.1029/2011GL049074)

The Cryosphere

- L18501** *Marika M. Holland and Julienne Stroeve*
Changing seasonal sea ice predictor relationships in a changing Arctic climate (doi 10.1029/2011GL049303)
- L18502** *William Colgan, Konrad Steffen, W. Scott McLamb, Waleed Abdalati, Harihar Rajaram, Roman Motyka, Thomas Phillips, and Robert Anderson*
An increase in crevasse extent, West Greenland: Hydrologic implications (doi 10.1029/2011GL048491)
- L18503** *E. Blanchard-Wrigglesworth, C. M. Bitz, and M. M. Holland*
Influence of initial conditions and climate forcing on predicting Arctic sea ice (doi 10.1029/2011GL048807)
- L18504** *D. J. Quincey, M. Braun, N. F. Glasser, M. P. Bishop, K. Hewitt, and A. Luckman*
Karakoram glacier surge dynamics (doi 10.1029/2011GL049004)

Oceans

- L18604** *J.-É. Tremblay, S. Bélanger, D. G. Barber, M. Asplin, J. Martin, G. Darnis, L. Fortier, Y. Gratton, H. Link, P. Archambault, A. Sallon, C. Michel, W. J. Williams, B. Philippe, and M. Gosselin*
Climate forcing multiplies biological productivity in the coastal Arctic Ocean (doi 10.1029/2011GL048825)
- L18602** *Ying Chen, Antonio Tovar-Sanchez, Ronald L. Siefert, Sergio A. Sañudo-Wilhelmy, and Guoshun Zhuang*
Luxury uptake of aerosol iron by *Trichodesmium* in the western tropical North Atlantic
(doi 10.1029/2011GL048972)

- L18603** *Shenfu Dong, Molly Baringer, Gustavo Goni, and Silvia Garzoli*
Importance of the assimilation of Argo float measurements on the Meridional Overturning Circulation in the South Atlantic (doi 10.1029/2011GL048982)
- L18605** *Alexey Sukhovich, Jean-Olivier Irisson, Frederik J. Simons, Anthony Ogé, Yann Hello, Anne Deschamps, and Gaust Nolet*
Automatic discrimination of underwater acoustic signals generated by teleseismic P-waves: A probabilistic approach (doi 10.1029/2011GL048474)
- L18606** *Arnold L. Gordon, Zachary D. Tessler, and Cesar Villanoy*
Dual overflows into the deep Sulu Sea (doi 10.1029/2011GL048878)
- L18607** *Kassi C. Riffe, Stephen M. Henderson, and Julia C. Mullarney*
Wave dissipation by flexible vegetation (doi 10.1029/2011GL048773)
- L18608** *Ryota Shibano, Yasuhiro Yamanaka, Naosuke Okada, Takashi Chuda, Shin-ichi Suzuki, Hiroshi Niino, and Mitsuhiro Toratani*
Responses of marine ecosystem to typhoon passages in the western subtropical North Pacific (doi 10.1029/2011GL048717)
- L18609** *M. Susan Lozier, Apurva C. Dave, Jaime B. Palter, Lisa M. Gerber, and Richard T. Barber*
On the relationship between stratification and primary productivity in the North Atlantic (doi 10.1029/2011GL049414)

Climate

- L18701** *Jeremy D. Shakun, Stephen J. Burns, Peter U. Clark, Hai Cheng, and R. Lawrence Edwards*
Milankovitch-paced Termination II in a Nevada speleothem? (doi 10.1029/2011GL048560)
- L18702** *C. I. Garfinkel, A. M. Molod, L. D. Oman, and I.-S. Song*
Improvement of the GEOS-5 AGCM upon updating the air-sea roughness parameterization (doi 10.1029/2011GL048802)

Atmospheric Science

- L18801** *J. K. Nielsen, M. Foster, and A. Heidinger*
Tropical stratospheric cloud climatology from the PATMOS-x dataset: An assessment of convective contributions to stratospheric water (doi 10.1029/2011GL049429)

Special Sections in Progress
