

CONTENTS

Papers

Experimental Study on the Flow Characteristics for Wind Over a Two-Dimensional Upwind Slope Escarpment	Ben-Jue Tsai and Bao-Shi Shiau	453
Model Construction of Option Pricing Based on Fuzzy Theory	Shang-En Yu, Ming-Yuan Leon Li, Kun-Huang Huang, Tsung-Hao Chen, and Chen-Yuan Chen	460
Fuzzy Control for Input Constrained Passive Affine Takagi-Sugeno Fuzzy Models: An Application to Truck-Trailer System	Wen-Jer Chang, Cheung-Chieh Ku, and Chien-Hsun Huang	470
Numerical Assessment of a Venting System with Multi-Chamber Mufflers by GA Method	Min-Chie Chiu and Ying-Chun Chang	483
Selecting Ports and Terminal Operators - An Application of PSO	Tzay-An Shiau, Li-Mei Lin, and Ding-Hsun Hsiao	499
Long-Term Predictive Value Interval with the Fuzzy Time Series	Ming-Tao Chou	509
Overcoming the Negative Frequencies - Instantaneous Frequency and Amplitude Estimation Using Osculating Circle Method	Ming-Kuang Hsu, Jiun-Chyuan Sheu, and Cesar Hsue	514
The Modified Collocation Trefftz Method and Laplacian Decomposition for Solving Two-Dimensional Stokes Problems	Chia-Ming Fan, Hong-Huei Li, and Chung-Lun Kuo	522
Reconsideration for a Study of the Effect of Chloride Binding on Service Life Predictions	Ming-Te Liang, Ran Huang, and Hao-Yuan Jheng	531
Transient Response of Long Bubbles in Volatile Organic Compounds	Cheng-Hsing Hsu, Ching-Chuan Chang, Chia-Chuan Kuo, and Kuang-Yuan Kung	541
The Turnover Intentions for Construction Engineers	Kuo-Shun Sun	550
Composition of Two Seaweed-Oligosaccharide-Lysates Derived from Agarase AS-II and Their Ferrous-Chelating Antioxidant Power	Fu-Jin Wang, Sheen-Kye Kang, Chong-Liang Pan, and Shao-Chi Wu	557
The Effect of Shifts in Medium Types on the Growth and Morphology of <i>Spirulina platensis</i> (<i>Arthrospira platensis</i>)	Yean-Chang Chen	565
Space-Time Least-Squares Finite-Element Method for Shallow-Water Equations.....	Shin-Jye Liang and Ying-Chih Chen	571
