

INTERNATIONAL JOURNAL OF ELECTRICAL ENGINEERING

June 2011

Volume 18, No. 3

CONTENTS

Special Issue for 2010 VLSI Design/CAD Symposium

- A 97.3% Highly Efficient Analog Maximum Power Point Tracking Technique Implemented for a Photovoltaic System.....
Chih-Yu Yang, Shao-Chang Huang, Chun-Yu Hsieh, Fu-Kuei Feng, and Ke-Horng Chen..... 95
- High-Performance Strength Adaptive Keeper for High Noise-Tolerant Wide Fan-In Dynamic CircuitsChung-Hsun Huang, Tzung-Lin Wu and Yi-Ming Wang 107
- A Single-Inductor Multiple Positive and Negative Outputs (SIMPNO) Converter with a Vector Current Control Mode for Electronic Paper Displays (EPDs).....
..... Yu-Huei Lee, Ming-Yan Fan, Ming-Hsin Huang, Yu-Nong Tsai and Ke-Horng Chen115
- An Integrated DC-DC Step-Down Converter with a Load Regulation Enhancement (LRE) Mechanism and A Proportional Compensated Differential-in-Differential-out (DIDO) Error Amplifier..... Yu-Huei Lee, Kuan-Yu Chu, Chun-Jen Shih and Ke-Horng Chen 127
- High-Throughput, Power-Efficient, Coefficient-Free and Reconfigurable Green Design for Recursive DFT in a Portable DRM Receiver
... Shin-Chi Lai, Wen-Ho Juang, Chen-Chieh Lin, Ching-Hsing Luo, and Sheau-Fang Lei 137
