

---

## Technical Papers

**Application of the SPH Method to Breaking and Undular Tidal Bores on a Mova**

[Pooyan Nikeghbali](#) and [Pourya Omidvar](#)

---

**In Situ Assessment of Sediment Erosion and Consolidation State Using a Free-**

[Jared Dorvinen](#), [Nina Stark](#), [Bruce Hatcher](#), [Matthew Hatcher](#), [Vincent Leys](#) and [Achim Kopf](#)

---

**Artificial Neural Network for Forecasting Wave Heights along a Ship's Route du**

[Chia-Cheng Tsai](#), [Chih-Chiang Wei](#), [Tien-Hung Hou](#) and [Tai-Wen Hsu](#)

---

**Effect of Harbor Walls on the Efficiency of an Oscillating Water Column**

[Daniel Raj David](#), [Sundar Vallam](#) and [Sannasiraj Sannasi Annamalaisamy](#)

---

**Sloshing Effects under Longitudinal Excitation in Horizontal Elliptical Cylindric**

[Wenyuan Wang](#), [Qi Zhang](#), [Qianli Ma](#) and [Li Ren](#)

---

**Experimental Investigation of the Hydro-Morphodynamic Performances of a Ge**

[Carla Faraci](#)

---

**Fragility Analysis of Pile-Supported Wharves and Piers Exposed to Storm Surg**

[Georgios P. Balomenos](#) and [Jamie E. Padgett](#)

---

**Hamiltonian Boussinesq Simulations for Waves Entering a Harbor with Access**

[R. Kurnia](#), [M. R. Badriana](#) and [E. van Groesen](#)

---

**Wave Shoaling over a Submerged Ramp: An Experimental and Numerical Stud**

[V. K. Srineash](#) and [K. Murali](#)

---

**Influence of Dam-Controlled River Discharge and Tides on Salinity Intrusion in**

[K. V. S. R. Prasad](#), [T. Sridevi](#) and [Y. Sadhuram](#)
